## REVISED STATUTES

OF KENTUCKY, NEW EDITION.

BY HON. R. H. STANTON.

This valuable work, prepared with great accuracy and labor, by the Hon. R. H. STANTON, of Mays ville, Ky., contains the Revised Statutes of Kentucky, as originally adopted in 1851-1852, with all the amend. ments thereto, and general laws of the State, enacted since and up to the present time; thus embodying the whole Statutory System now in force in the State. In addition to the very great convenience of having all the Statutory Law condensed into a single work well arranged, the text of these volumes is illustrated and enriched by full and copious notes of the Decisions of the Court of Appeals of Kentucky, settling the con struction of such provisions as may heretofore have been of doubtful or uncertain meaning. Those engaged in the administration of the law in Kentucky. will be saved much labor of research by thus jhaving, in a small compass and condensed form, the whole practical working of the Statutory System of the State. In truth, the work will be found of great value to all

classes of persons. The work is comprised in TWO ROYAL OCTAVO VOLUMES, printed with new, clear type, upon the very best paper, and bound in superior law binding.

THE semi-yearly sessions of this Institute commences on the FIRST MONDAY IN FEBRUARY and the FIRST MONDAY IN FEBRUARY and the FIRST MONDAY IN SEPTEMBER, each year. The Course of Study embraces the Primary, Academical and Collegiale Departments, with the Modern Languages. The none of instruction is thorough and scientific. To raise the standard of Female education is the great aim of the teachers, and to aid them in this, a "Visiting and Examination ommittee" of three will visit the school quarterly, and by their rigid examinations will prove, it is hoped, valuable auxiliaries to the teachers, in exciting a spirit of energy and application. The course of instruction embraces four departments, and diplomas will be granted those who complete successfully and thoroughly a full course of study. The location is in the pleasant village of Bridgeport—five miles from Frankfort, and forty-eight from Louisvillee-which is unsurpassed for its salubrity and the morality and refinement of its inhabitants, making it a desirable place for the education of girls. It is convenient of access by the Louisville, Frankfort and Lexington railroad, and by daily stages from Frankfort, Shelbyville and Louisville. The young ladies board in the family of the Principal, and are treated with paternal care and kindness—enjoying, at the same time, the advantages of a refined social intercourse.

OR AIR LIGHT.

ent Artificial Light in the World!

The Vesper Gas Light has won for itself a reputation for elegance, economy, safety, and simplicity far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixture is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burned in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, there being no flicker or unstendiness in the flame. The Vesper Gas Light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single-light burner to the most costly chandeller. Each chandelier is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single-light burner to the expensive chandelier, are miniature gas-works in themselves. They are sold at prices which do not exceed the cost of the ordinary gas fixtures of similar style and ornamentation. A price list will be sent to any address on application. The Cheapest, most Brilliant, and most Convenient Artificial Light in the World! large: Now, therefore, I, BERIAH MAGOFFIN, Governor

HOSTETTER'S TOMACH BITTERS

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery.
The consumption of Hostetter's Stomach Bit ters for the last year amounted to over a half million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system. giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate. invigorating to the bowels, excellent as a tonic and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.
All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoss, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consul their own physical welfare by giving to Hos tetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

We publish to-day the address of the Hon. GEO. W: WILLIAMS, delivered at the recent annual meeting of the Kentucky Colonization Society. Mr. Williams premised, in stating the points he desired to discuss, that he might be considered by some of his audience as departing from the proper object of the Colonization So ciety. He wished, therefore, that it might be distinctly understood, that he alone was respon sible for the opinions he should advance, and not the Colonization Society. We understand that when the Board of Directors of the Colonization Society invite a gentleman to make the address at the annual meeting of the Society, it never suggests to the speaker what topics he should discuss. He is left to his own judg ment as to his opinions, and his full freedom to unfold them. The Society must fall back upon its constitution as the exponent of its object, and the method it will adhere to in carrying it out. Mr. Williams has therefore spoken with out trammel, and the Society cannot consider she has spoken through her speaker in the advocacy of a forcible expulsion of the free blacks from the State by legislative power. It is consistent, and wise that the Colonization Society should adhere firmly to her long practiced course of taking to Liberia the free blacks who voluntarily desire the Society to take them there .-Mr. Williams would be one of the last to advise that the Society should change this feature in its constitution, as the matter now stands in the

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quan-

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system and prevents the develop-ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and compared accumulate in sufficient quantity and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy af-
